EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bruce Troxell on September 27, 2005.

The application has been amended as follows:

Claim 1, line 8, "an end of the FBG" has been changed to -, a first end of a FBG-;

Claim 1, line 11, "another end of the FBG" has been changed to-, a second end of the FBG-.

Drawings

Two (2) sheets of formal drawings (Figures 1-6) were filed on February 04, 2004 and have been accepted by the Examiner.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art cited on attached form PTO-892 is the most relevant prior art known. However, the invention of claims 1-14 distinguishes over the prior art of record for the following reasons.

Regard claims 1-14; the claims are allowable over the prior art of record because none of the references either alone or in combination disclose or render obvious a device for a passive module of optical gratings as defined in claim 1, comprising a first

housing made of material of low coefficient of thermal expansion, a longitudinal receiving recess being defined at the first housing, a tunable mechanism including an elastic recess is formed with the first housing and a tunable member which can tune width of the elastic recess through pressing the first housing ; a second housing made of material with negative coefficient of thermal expansion and received in the receiving recess of the first housing, a slot being longitudinally defined in the second housing for receiving a fiber Bragg grating. Claims 2-14 depend from claim 1.

Hence, there is no reason or motivation for one of ordinary skill in the art to use the prior art of record to make the invention of claims 1-14.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
